

# Blockchain-Based Decentralised Marketplace for Secure Trading of Intellectual Property

Vijon Baraku,  
Dr Simeon Veloudis,  
Prof Iraklis Paraskakis,  
Dr Poonam Yadav

# What is a “Blockchain-Based Decentralised Marketplace for Secure Trading of Intellectual Property”

## 01 Marketplace

Web platform that enables product purchasing

## 02 Intellectual Property

A work or invention that is the result of creativity to which one has rights and may apply for a patent, copyright, trademark, etc.

## 03 Secure

Confidentiality, Integrity, Non-Repudiation.

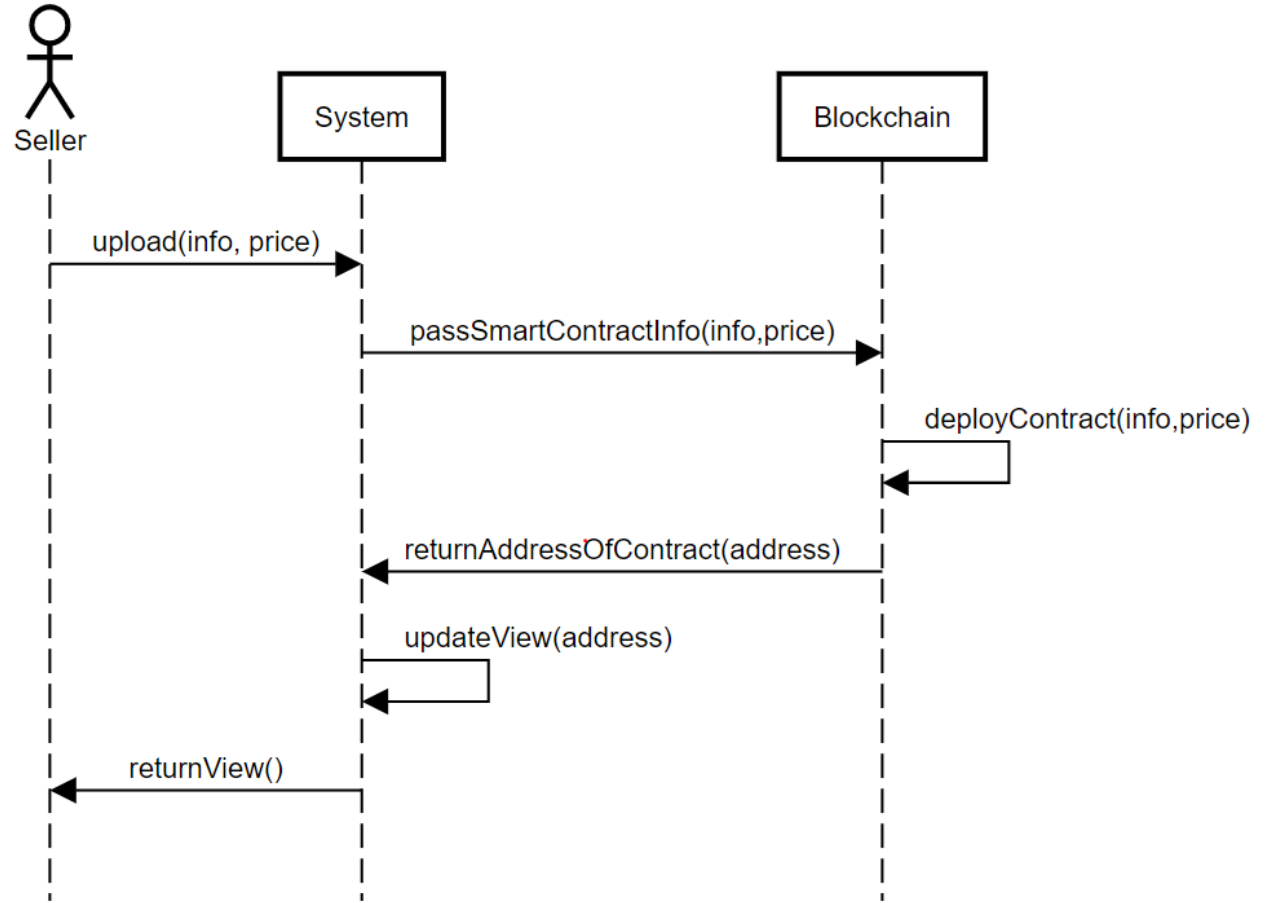

## 04 Decentralised

Distributed application architecture - Blockchain

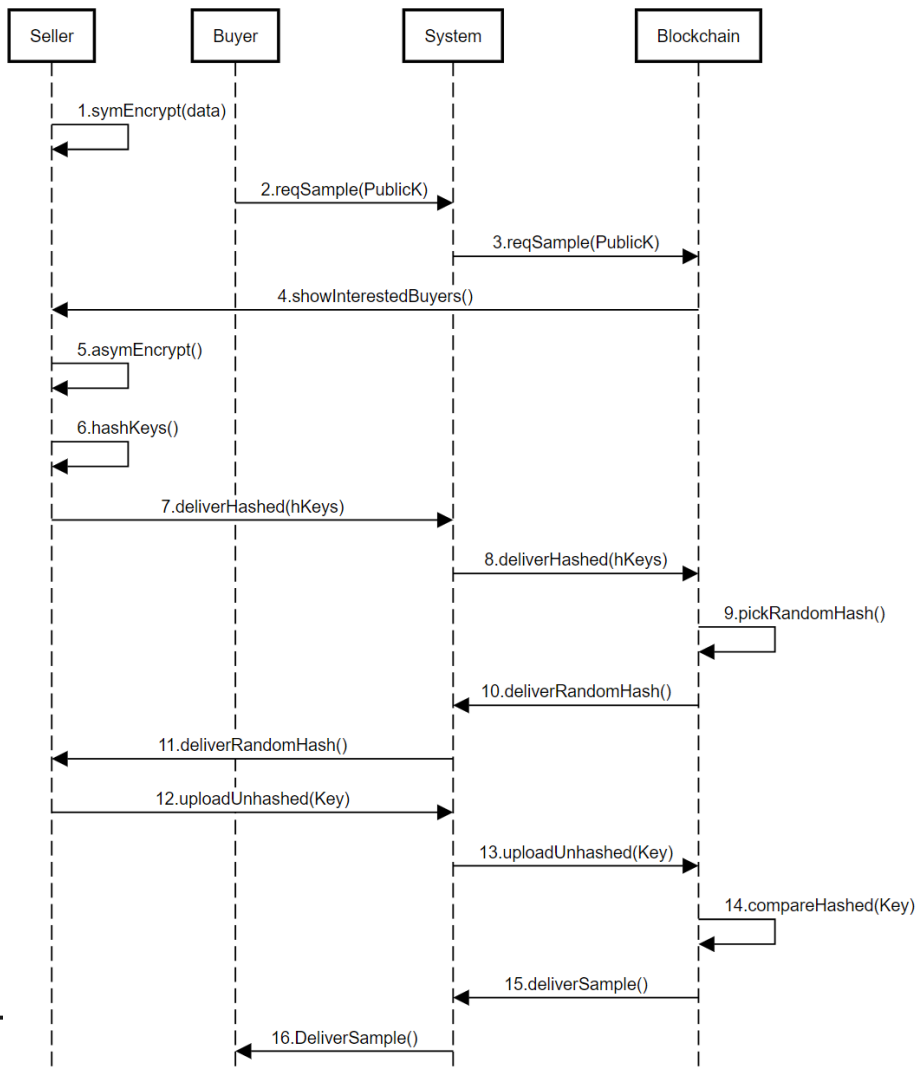

# Why?

- No intermediaries
- No fees
- No biases towards sellers or buyers
- Transparency

# How?

# How? (2)

# Also in the paper

How we got the public key from the public address

Purchasing the IP - buyer perspective

The verification of the purchase - seller perspective
